SUMMARY

Data Engineer with **3** years of experience designing automated data pipelines, cloud workflows, and AI-integrated intelligent workflows and systems. Skilled in **Python**, **GCP**, and **Communication** with a strong track record of reducing manual effort and enhancing efficiency. Effective communicator with leadership ability and a growth-oriented mindset.

WORK EXPERIENCE

HCLTech, Noida, India | Software Engineer (Data Engineer)

[Jan 2024 – Present]

- Led a cross-functional team to design and deploy an automated data pipeline integrating Generative AI, replacing manual workflows and reducing manual dependency by 100%.
- Architected and optimized **CI/CD** pipelines, developing production-ready **Apache Airflow DAGs** that reduced data migration runtime.
- Data Pipeline Automation: Reduced manual reporting time by **40%** through automated Python to BigQuery to PowerBI pipelines.

Blackcoffer Consulting Firm, Delhi, India | Data Science Intern

[Aug 2023 – Jan 2024]

- Built **FastAPIs** and pipelines for **Google Looker Studio** dashboard integration with **BigQuery**, improving reporting speed by **30%**.
- Designed and published interactive dashboards in **PowerBI** and **DAX**, enhancing data accessibility and delivering actionable insights.
- Developed an automated **web scraping** workflow using **BeautifulSoup**, **GCP BigQuery**, for scalable data operations.

KEY PROJECTS

SSB Forge | Personal (SSBForge.in)

Developed an end-to-end web platform integrating automated content processing, powered AI-generated summaries, daily data updates, user progress tracking, and secure premium content delivery, at **0 cost**.

Text Scrubbing Pipeline | HCLTech (Client)

Built an automated text-processing pipeline using LLM to identify and remove PII, profanity, and sensitive content, achieving **99%** free-text language translation and scrubbing accuracy.

Blackcoffer Consulting Firm

Sentiment Analysis: Developed an automated Python script for sentiment analysis of content from **200+** scraped websites.

Built an ETL workflow for extracting, cleaning, transforming, and loading large datasets from UK government sources.

Google Looker Studio Dashboards: Developed Looker Studio dashboards displaying business information via a Python data pipeline connecting to GCP BigQuery.

CERTIFICATIONS

- **Google Generative AI Leader – Google Cloud**
- **Associate Cloud Developer – Google Cloud**
- **Aspire Learning Silver Badge – AWS Cloud Developer (HCLTech)**

TECHNICAL & INTERPERSONAL SKILLS

- **Programming & Query Languages:** Python, SQL, Git, dbt, Apache Airflow
- **Frameworks & Libraries:** Ollama, OpenAI, BeautifulSoup, REST API, FastAPI
- **Cloud Platforms:** Google Cloud Platform, BigQuery, Cloud Run, CI/CD, Gemini Enterprise, Pub/Sub, GCS
- **Data Visualization & BI Tools:** Power BI, Google Looker Studio
- **Others:** Agile Methodology, Jira, Confluence
- **Interpersonal Skills:** Communication, Leadership, Problem Solving Mindset

EDUCATION

Bachelor of Technology in Computer Science and Engineering

[2019 - 2023]

Dr APJ Abdul Kalam Technical University, GCET, Greater Noida

Graduated in First Division with Distinction; Head of Editorial Club and Student Council Coordinator, demonstrating team leadership, coordination, and communication.
